

2021 Oldsmar Soccer Club Try Out Procedures

Check-In Procedures

Pre-Registered Participants (Online) –

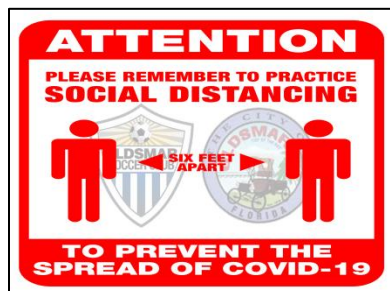

In order to reduce the number of face to face interactions at the complex we will not require pre-registered participants to check in at a specific table. Your player can go directly to their assigned Try-Out location (all fields will have age group signage posted) and check in directly with the coach/trainer running their session. No form is required. All fields have marked sections next to the fences for players to place their bags and other items they may bring to maintain social distancing. They will have a list of players signed up and will check them in at that location.

Walk-Up Registration –

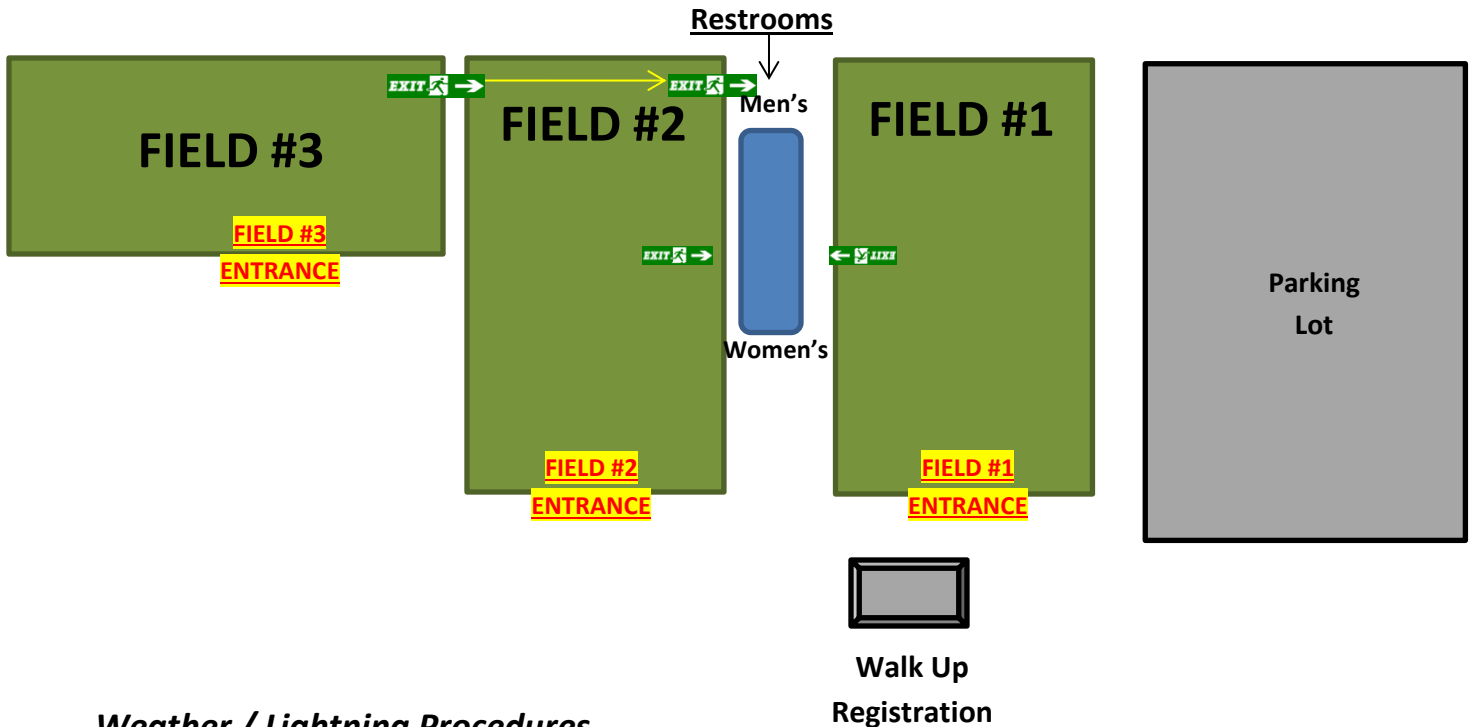

While we will have registration forms available we would prefer that you register online to reduce the face to face interaction at the complex. In the event that you need to complete a form in person, please proceed to the gazebo located on the south end of FIELD #1. A staff member will supply you with the form. Once completed, your player will then take that form to their assigned Try-Out location and give it to their coach/trainer to check in.

Field Signage / Pedestrian Traffic Flow –

In an effort to reduce to amount of interactions at the complex we are placing signs that will help you traversing the fields. Think of it as one-way streets. Each field will have a dedicated entrance and exit to better manage the pedestrian flow. We ask that parents of older participants remain in their cars during the try out process. Parents of younger participants are allowed in but must stay off the field and maintain social distancing along the fence line. We have set up all the younger age groups on our first field closet to the parking lot. Please adhere to the signs.

Complex Map

Weather / Lightning Procedures

The Oldsmar Sports Complex is equipped with an Earth Networks Early Warning Lightning Detection system. In the event of lightning within 10 miles of the complex the system will alert and sound a 15 second horn blast along with a strobe light located between the BMX course and baseball fields. If the system is triggered **ALL players, parents and staff need to immediately proceed to their vehicles**. DO NOT congregate outside the concession stand or the picnic tables / gazebo area. We are required to stay secured for 30 minutes after the last strike detected within 10 miles. You can check the status on our website at www.oldsmarsoccer.com/lightning as well as real time updates on our Facebook page at www.facebook.com/oldsmarsoccer . In the event that the delay will last beyond the schedule try out time, we will cancel that session and reschedule. Reschedule information will be communicated via email and our social media / website portals.
